

Father and son team, Craig and Matt Beere opened their doors in 2017 to share their passion for great beer and service with the North Shore. Their cozy tasting room and bright patio are a great place to enjoy their ever changing list of forward thinking beers. IPA's of all shapes and sizes, delicious fruit kettle sours and crisp lager and pilsners.

Green Leaf Brewing is dedicated to building a community through the Lonsdale Quay Market and the Lower Lonsdale neighbourhood. Along with our beers, we also make our own organic ginger ale and rotating flavours of kombucha. We welcome all walks of life whether tourists, commuters or craft beer lovers!

House of Funk was created to challenge the status quo of beer and coffee, cultivating an environment of experimentation with a devotion to quality. Our small batch system allows us to push boundaries and experiment with brews, meaning we're able to serve up fresh and unique flavors more frequently.

Three North Shore locals had a dream—to brew good beer in our old stomping grounds. It started with a vision: to marry our passion for good beer, good friends and West Coast cabin adventures. Our dream has taken flight and we've found a home for North Point Brewing in Lower Lonsdale's Shipyards District.

Streetcar Brewing is just two blocks up from the SeaBus, hidden in a back lane (LoLo Lane), doing very tiny batches that allow us to have a weekly changing tap list. Come visit our tasting room with our large patio space.
